Country:

E-mail:

Contact person:

We undertake to observe the regulations and internal company rules listed in the **'Occupational safety regulations for external companies'** and the associated appendices, and to oblige our employees and any subcontractors to comply with them.

We undertake to take all measures necessary to protect the health and lives of our and your personnel and third parties as well as the environment when carrying out the orders you have placed with us (contract work), in accordance with the relevant EC directives, the German Equipment and Product Safety Act (GPSG), the German Occupational Safety and Health Act (ArbSchG), the German Accident Prevention Regulations (UVV) and the German Water Resources Act (WHG).

We shall inform our installation and supervisory staff working on your premises about the regulations and safety precautions that must be observed in your company due to the nature of your operations, and we shall oblige them to comply with them.

We are aware that the commissioning or decommissioning, the switching on or off of systems, the performance of hot work and the handling of water-polluting substances may only be carried out with the express consent of the responsible department of your company.

We undertake to discuss the work to be carried out with the responsible external company coordinator of Hamburger Hafen und Logistik AG before commencing the actual work and not to start the work without an external company job card.

The external company job card must be carried on the construction site and presented to the occupational safety department or a responsible person from the production department upon request.

For the protection of employees, persons working on the factory premises are prohibited from bringing, procuring, selling or distributing alcoholic beverages and other intoxicants.

We will instruct our personnel to comply with this prohibition for reasons of personal and operational safety.

In the event of violations, Hamburger Hafen und Logistik AG is entitled to refuse access to or continued presence at the company.

The contractor recognises the above conditions:
